

## NDE GARDEN RULES

### **Be respectful:**

- (1) Listen carefully and follow instructions.
- (2) Use inside voices--classes are working around you.

### **Be safe:**

- (1) walk with tools
- (2) keep tools below waist level
- (3) use tools as they were meant to be used
- (4) avoid bending or breaking tools—don't use excessive force

### **Clean up:**

- (1) Clean and put all tools away.
- (2) Sweep or rake as needed.
- (3) Put "safe" garden weeds in pile near composter. Large sticks and invasive Bermuda grass go on the street in front of K for pickup.

### **Remember:**

**Gardening at school is a privilege. If students violate rules they will be sent back to class.**
